Three types of cameras were placed in a Catholic school to keep students and teachers safe

## Case Study: School Invests in Cameras to Prevent Vandalism

### Introduction

A large Catholic school experienced an increase of vandalism on campus. The crime increase was alarming to not only parents and teachers, but students. School staff believed there needed to be more cameras throughout the school for everyone's safety. The staff was especially concerned about after school hours. A large premise of the campus needed video coverage. In less than a couple months, the video solution proved to be very effective. The cameras captured the vandals in action and that video is now forensic evidence.

## CASE STUDY

### Challenge

The construction of the building created a big challenge for installing a video system. After remodeling, the school's infrastructure changed and that made wiring the video solution even more difficult. Coming up with creative ways to cleanly wire security cameras was definitely an obstacle. School staff kept touching the cameras which forced the cameras to change from the patrol setting to park.

### Solution

Based on the campus size and locations of the PTZ, LTS chose to install three variety of cameras for this job. The installer used 12 Platinum HD Fixed Lens Bullet Camera 3.2MP, CMIP9532, 12 Platinum HD Fixed Lens Turret Cameras 3.2MP, CMIP1132, 10 PTZ Platinum IP PTZ High Speed Dome Cameras 2.1MP, PTZIP762X20IR all connected to one NVR that was capable of adding IP. The Platinum Enterprise Level 32 Channel NVR 2U, LTN0732-R8 was used for this solution.

### Featured Products:

(CMIP9532) Platinum HD Fixed Lens Bullet IP Camera 3.2MP

(CMIP1132) Platinum HD Fixed Lens Turret IP Camera 3.2MP – 4mm

(PTZIP762X20IR) Platinum IP PTZ High Speed Dome Camera 2.1MP

(LTN0732-R8) Platinum Enterprise Level 32 Channel NVR 2U

### Results

With the new video solution LTS was able to provide, school administrators were very happy. The new PTZ cameras were very clear and could zoom in far with great focus, more so than their previous camera system.
