## Case Study: IP Solutions Give Better Surveillance at Arena

### Introduction

The Sports Megaplex offers 120,000 sq. ft. of indoor recreational area for sports. It has large indoor gyms, 10 indoor basketball courts, soccer fields, and more. This indoor facility has many entrance and exits as well as halls and big open floor plans for activities and locker rooms. They have high volume of traffic come in throughout the day with many activities from birthday parties, extracurricular activities, to professional teams. The facility experienced several break-ins and needed stronger surveillance to catch the thieves in action.

Video Solutions for Security Professionals™

## CASE STUDY

### Challenge

To curb further break-ins, the staff wanted an IP system that would produce HD images while watching every corner of the facility. Since there is a lot open space and variety of lighting issues, IP with WDR feature was necessary. Wide Dynamic Range would help offset any high contrasting areas where light would be a problem such as the basketball courts and halls.

### Solution

LTS offered a wide range of IP cameras in order to cover all the corners, some with very high ceilings. The following LTS IP products were used in the installation project; one CMIP8222, one 8832-P16, and 11 CMIP3022

### Featured Products:

(CMIP8222) Platinum Mini  
Bullet IP Camera 2.1MP

(8832-P16) Platinum  
Enterprise Level 32 Channel  
NVR 1.5U

(CMIP3022) Platinum HD  
Fixed Lens Turret IP Camera  
2.1MP - 4mm

### Results

LTS IP Solution offered clear image quality as well as the ability to remote view from Smartphones, tablets, and remote PCs. Shortly after the completion of the new security system, a break in happened, and the gym owners were able to get an alert notification on their Smartphone and footages recorded was turned into the police.
